

vade in cosmic is called "Practising".

This practising development is to see the "Returning Memory"

First original start from bottom given to act, went in vertical in spring like form, is the first view of your self.

Second view to the next house given acted as prepared in all side, to unlimited space.

This is acting as "Practising"

8-10 p.m.

So this reaching of the Memory will act only in the self system and not in the cosmic Memorandum.

The Self body is in prepared state but the Reaching is in very nearest space, as one foot in sideways say.

Further reaching is in inches calculation. This is not "Prepared" working to act but simply throwing the pressures within this distance to give room to the Reaching.

At present is in 6 inches working further should be seen.

Memory:

Adoption – there are two kinds.

1 Giddiness    2 Adoption

1 Receiving the waves and producing by the Memory

2 Waves passing without the conscience

The work given today is of the 1. Kind at 12-00 Noon.

7-20 p.m.

About the Conscience

Giddiness:

The cause and from where, not known to the Memory is the Giddiness, eventhough it is produced by K.

Thus produced and not known what it is, is another Giddiness.

7-25 p.m.

Contd.-

Dec 23" 20 Th.

Thus produced thought, not knowing to the conscience and goes in vapour is an adoption.

Because this goes and is deposited in a place.

1. Vapour Giddiness
2. Produced Giddiness
3. Throwing Giddiness

To throw a Sound a vibration should be given to the Memory from Kundalini to produce a sound with conception, to the physical body.

The vapour deposit works in astral after the production of unconscious state to the physical system acts on Etheric, is called dream.

That is man in rest period i.e. during sleep.

7-47 p.m.

Here 2 and 3 Giddiness are not working

The conscience is working in dream

The difference between producing not known and the Kundalini's giving.

When a soul in conscious state and separated from all sounds, lovely and without any kind of disturbance this giddiness will act is the Second sort.

The third giddiness that comes from Kundalini, is working as Sounds in conscious state to the human form is the ordinary speech.

These kinds are working in human form in each Second,

The outer air has not been bored and it has 3 turns work to operate.  
Further advice after rest.

Roat begins of belief enlargements formed structures memory.

Memory in adoption means a subject continuing.

This continuing subject is a Memorandum.

Human body or figure with conscience is a pure memory of Memorandum.

So far our line is concerned this subject is to be viewed now and we need not touch with cosmos.

(The C. V. memory, which was winded at the beginning has returned and focused in her system at 5-30 p.m. today)

10-05 p.m.

If a begin from Memory starts it becomes a Memorandum.

Thus prolonged memorandums up to Human form stands in Memory as Memorandum.

7-20 p.m.

Dec 19" 20 Sund.

The whole human body itself is a Memorandum.

(From Memory throws a production with certain speed goes and then it is stopped. These with speed & without speed should be taken as Memorandum). This is a minor point given for example.

7-25 p.m.

Our line has touched the Memory. In pure Memory, it touched & finding that it is not proper level and further investigation in high levels in None, Nil, less, "O" as thousand grades should be traced & so it prolonged as a new grade kindles and in the level of no creation of 1,2,3 & etc, is the limit it reached by our line in "Memory".

This Memory bored will return without any touch with cosmic Memorandum, your self system.

This is a separate subject should be explained.

**Re-practice:**

The speed that was given in the body by the Self Memory prepares the system to receive the returning memory.

While this work is going on it thinks also to prepare the next house.

7-51 p.m.

In order that house also is to see the returning of the Memory.

As this view is given in this physical system, the other house Memory is also kindled here to have an idea to see the Reaching.

Hence this kindling causes the other house Memory to per-

From Saturn to Venus a connection is going to be given this night.This connection will pass through earth pituitary passing centre. By this other half cup principle will act, not to shrink the Earth.Tomorrow Noon the Saturn will bore the Earth absorbing all the planets work.New principle is introduced by the Saturn's boring the earth and making all the planets to adopt this principle."Without decay & figure change" working is going to act.

About the T.M's working.

Both consulting how to take work jointly.

From the beginning they have to start in different levels.As per writ, Tight levels C.V. to M from higher and A from M to Earth limit is to work was revealed to them now.

/ Even though this has been explained to them but they are

not acting with that conception is a failure done by them.

About the yesterday's practice

In the inner portion of the brain 6 markings have been given in the following places.

1. Two sides of the forehead
2. Do above the ears
3. Do of the back skull

To produce lights the beginning is given up to epidermis.

The 20 days period is not fixed by the working but the trial shows two tenth-grades.

In the self system, as the flow reached **K** (not bursted one). **K** is kindled by this pressure on May 29<sup>th</sup> 1910, Sunday, at 8-00 p.m.

10-20 a.m.

28-11 20 Sun.

The **K** is raised by this pressure with cover in order to reveal the working to the conscience up to the vertebra top; there it was bursted and the spirit of it was made to pervade the body.

(Further by next call)

28<sup>th</sup> Nov 20 Sun.

Advice:

The present regulation will take 5 days more. During these days from physical body the inner, the etheric, the astral, mental rupa and arupa the ascending and the descending of these four grades, is going to act in the self system.

To practice in standing posture in a calm place.

1. To observe Etheric.
2. Astral, next inner.
3. Mental, next inner.

The past 4 days, the Placenta working is completed.

6-50 p.m.

C.V's experience of the above said practice as per advice. From inner to outer level, a little inner, a chill passing. A shaking is given, then a raising is going on. Much pressure at bottom and low at top, Waist to brain level and the legs at brain portion.

6-58 p.m.

Appears colour produced etheric.

Then astral separation as T.M.

Etheric separation is the first experience given only today.

Etheric with Yellow mixed red aura below Knee in right side.

Each organ in the body is in stiff state and the sounds are thrown now from the heart.

A burning sensation from the nerves.

Mental raising is given – Sensory attractive.

No colours Bright form, all side conscience.

Two grades, rupa and arupa act.

In front.

1. Astral stands as daily guarding
2. Etheric.
3. Mental rupa.
4. Mental arupa.

Astral seems to be more powerful than all other forms.

In raising, mental rupa, arupa should go. Mental goes to two furlongs height level mentioned in the morning.

Etheric throw to physical:

1. Etheric recalled
2. Etheric improved space limit spirit.
3. Forgiry focus working spirit

**Advice:**

From the beginning.

Received of the Master.

Master pupil.

First boring and immediate touch to physical.

Then promise for two years and that form was in cutoff within that time.

Second touch of C.V.

This touch conception of Mahatmas in Himalaya Side, i.e. North.

C.V.'s leading goes to North pole and from that in tangent form further raising.

Here the same conception of the pupil is adopted that is Standing in **M** level to **M.T.A.**

By this connection "M" course throwing in Sounds by C.V.

Here Kundalini and Chakrams work is to be changed by the cause of the Spirit extracted from K. This work was attended by the pupil.

By M level work this spirit should be focused and in what way will it work?

The pupil acted in the development of the self system up to neck as T.

M up to hip bone, hands

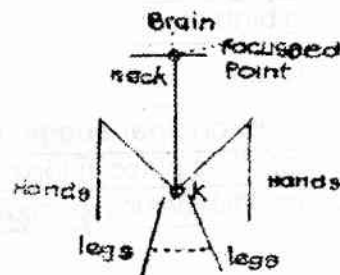

and heart.

T brain to neck.

A iegs

K is raised from leg as A

Then K turned in M as spirit.

After, K stands in T as focused point.

By this K, pervades the whole body.

Up to this pupil worked.

### 3. Conceptions (9-40 a.m.)

1. Beginning — a) operating to the child  
b) using to the child
2. Plenty of prana, by pupil.
3. Practice Beginning.

The self sound, "**Plenty of prana**". The "**Plenty of prana**" is in stock and use it — addressed to the pupil. This acted in another spirit (pupil) and that spirit in thought form thrown to reach "**Plenty of prana**", and to supply from there to the child. Waited for a few minutes, and then questioned have you reached?

Pupil, Yes.

Here, reached and replied to the sound given. So, to the Self K a new kind of flow is added with usual working flow of the cosmos in that moment.

Then asked the pupil to supply prana to the child. By this first flow to self, the second to another soul.

By this outer developing, i.e. developing mediums work begins.

There is a difference between these two flows.

In the self system this flow pervades the whole body and K is as it was.

The child's K was in bursting stage as the child was in death occurrence. This flow acted in that bursted K. The pressure of this and that of K acted as 8 (2 nots) as two centres and kept the system for 20 days by the "plenty of prana" working.

120

10-51 p.m.

Observe the feeling given to you mere at foot for 1 minute.

Acted & felt the process. Then continued as per advice and felt the same for 5 minutes.

Then observed in sitting posture in chair feet touching the floor.

Same experience.

Further after 12 night.

6-15 p.m. About day Reg. Nov. 14" 20 Sund.

In the tube working, 360° to two sides as 720 and the tube bottom as, North pole to the South pole touching is to take.

During this 12 days working, the four sides pressure should act in a moment to the earth on four sides.

During last 4 days it took in marking the degrees.

From to day 12 days will take to complete the work. From the 10" inst the tube inner work was going on and it could not reach the outer as suggested before.

Even this work too will begin only after 2 A.M.

Further advice could be given only after 10 P.M. practice.

6-25 p.m. Nov 16" 20 Tues.

By the Meridian tube working the earth Longitudes or degrees are coached with double capacity as it is related by 720 marking to work.

The Earth at present the bottom side is more stronger than the top.

By the above regulation the top side will be equal to bottom, and vigour wanting to the earth is also supplied.

**"Regulated boils of air compressed."**

In this heat & cooled are working equally.

121

The equal production chillness will be created at the bottom when the top is in increasing state of heat.

6-30 p.m.

Nov 20" 20 Sat.

After the completion of days reg. On the 25" inst. Then the 4 days progress of "Puls vertical running" will begin.

Explonation to this could not be given none.

It took 4 days from 10" inst to complete the Hangers' work.

The 12 days Reg began.

From tomorrow or next day forward Etheric plate work begins.

12 Noon Advice.

Nov 27" 20 Sat.

Truth level is 10 years guarantee.

Hopes is of 3 months.

Truth progress 1 month

Truth's Motion 15 days.

At present Truth & Motion level working is going on and has reached 2 furlongs from one Mile height from the earth.

This will take a month more. During this period to the mediums some phenomenas will be shown.

The details of this work will be revealed later on.

The coming work will keep the conscience in Astrological way taking birth etc.

12-50 Noon.

As per the original suggestion this figure must feel the change that takes place in the physical system. So any kind of development that goes to you should be given in conscience state only.
