

66

There are 370 but the raising quill marks 365.

Each point has the capacity to 1000 centigrades and is in latent state.

1 & 2 sides work.

In the oval each point has a converging with a capacity to show 1000, if the vertical raising is touched, but it will not raise on its own accord.

If any pressure touches the other point it will not show its capacity to the vertical but will act in its own level not in order, as it shown to vertical.

7-10 PM Same Subject

What is going in this vertical when it is in one point by the capacity of the converging?

In Kundalini principle as first, second and third coated i.e. three quarters finished.

In the 4th coating without centre raising quality or mercury quality is shown as centigrade.

The oval form fit up, is small quarters. The oval form is 3 quarters completed when the 4th quarter begins in vertical raising the centigrade speed is shown.

6.05 p.m. Same subject contd. Dec 17th, 19. Wed.

By the above said causes to the vertical the formation of latitude and the longitude and the formation of the planetary are caused.

67

The vertical line before movement it is standing on equal pressure on the oval and the pressure given by it will be equal on all sides hence the vertical is in standing without movement.

Quill drill in one side

Drinks, dreamside in another side

By the above 4 pressures has caused the vertical line at the top to produce a light in cone form to big height and fixes the blazing by a throw and it is absorbed by the high chillness as weather.

Without further raising a comet tyre is formed and by its tail work a cone formed in chill portion and a centre is fixed in small form.

7.30 p.m.

This form as Triple formed by three quarters principles to act as Triple, Eclipse monger route, symbol lights and comet retortion from that point.

This weather by the above retortion gives a pressure to the vertical in a cone form.

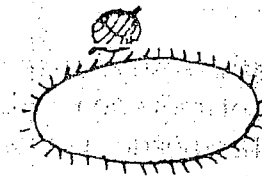

From this the chill pressure given by this to the vertical causes a shrinking.

The raising pressure to the vertical again given causes the vertical to raise in quarter principles in arch form. So a sideways movement has began.

6.30 p.m.

Jan 3rd, 20. Sat.

The Earth Moulding Subject

If the vertical comes round once the oval the latitude and longitude are formed to the earth.

In the Second running quill, drill etc.

In the third-planetary, Sun formation cause.

forth- planets of the earth. (Triple planets)

To each running twice the length of the vertical, space is increased.

7.40 p.m.

1920

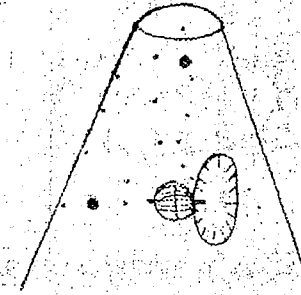

9.40 a.m.

Jan 6th, 20. Tue.

From the increased space the blazing is retorted to the side 2 and the light is reflected to the formed earth.

1. Running after light formed at the top.
2. Running reflective form formed and reflected.

(Twice the distance of the top and bigger in size.)

6.50 p.m.

Jan 8th, 20. Thur.

3. The reflective ground forms a centre so that much heat may not fall on the earth.

4. During this time another running has been finished by the Earth:

By the above said 4 works 4 kinds of covers are formed to the Earth by the four runnings:

First cover formation

7.00 PM Same Subject

Bottom pressure to the tube and the chill pressure at the top and the tube after becoming filled with bottom pressure alone and without any other space left, then the chill air pressure is given at the top of tube.

To take the tube as a motion one.
and the chill air as a Nil one.

The motion in the surface of the tube mouth and the chill air pressure is first absorbed by the tube and the rest of the chill air pressure is thrown over to the outside over the tube.

6.00 p.m. Jan 14th, 20. Wed.

When the nil reached the out side bottom of the tube the motion in the tube causes a slanting motion in the out side.

First bottom pressure absorbing the chill pressure and further pressure from the bottom while expelling the chill as

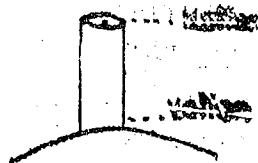

1. The chill (absorbed) from the bottom.
2. The chill pressure from the top.
3. The chill pressure all round the tube.
4. The motion pressure in inside full.
5. The chill absorbed has reached half the level of the tube, a light is produced by the tube at the mouth (top).

When once this is thrown out it was absorbed by the chill portion and focused at the twice the distance of the tube.

5.25 p.m. Jan 15th, 20. Thur.

Lens work subject

1. None 2. Notion 3. Lotion 4. Consolation 5. Constitution.

Notion

Lotion

When none covers the mouth of the tube is called the Notion.

When None is absorbed at the bottom becomes Lotion.

This Lotion by motion reached this centre and is called consolation.

6.00 p.m. Same Contd.

When this absorption formed a light is produced.

None. Notion. Lotion. Consolation. Motion.

When forming consolation produce feeling in itself causes spiritual blazing the Lotion and the Notion are pervaded by reflexion tutions.

This is thrown out by motion i.e. consolation thrown out.

The whole tube becomes like a telescope Lenses form, and it is with the following principles.

Nil, Begin, Truth, Motion - Lower half of the tube.

None, Notion, Lotion, consolation - in upper half.

Specifics - in the centre portion 6.45 p.m.

5.10 p.m. Same Subject Jan 16th, 20. Fri.

In the vertical tube 8 kinds of Lenses work throws light at the mouth of the tube.

5.10 p.m. Jan 17th, 20. Sat.

Oval form slanting

When became 'Consolation' the spiritual blazing caused by it, gave pressure to the oval form pressure it was retorted on both sides in slanting.

By this sideways motion given to form latitude and longitude to the Earth formation.

4.00 p.m. Jan 25th, 20. Fri.

About the Reflexion blazing Constitution level. Quarter's Breams.

Neptune and uranas are in condensed form since 10,000 years. Before that those portion were in airy state in chill.

Then saturn was retorting as border. From the beginning of our line the comet tyre is in formation.

6.05 p.m. Jan 29th, 20. Thur.

1. Cast Coin 2. Historu Bent. From earth formation except these

72

two nothing is focused at the longest distance. Out of 35 focused 1 & 2 are condensed & the rest have gone in vapour. This should be called swan state.

6.45 p.m.

Jan 29th, 20. Thur.

Constitution contd.

Below these cost coin and Historu bent 33 converted vapour ground.

Below this a boarder is formed by comet.

The retorted air from the comet forms the border of the sun.

7.15 p.m.

About Advice Thought affects in her development, avoid from this moment.

10.00 p.m.

Advice.

Feb 12th, 20. Thur.

From 10th week a cuff- button like work in the (Budha 8th week). intestine portion and hard breathing will be shown.

From top deposit in nil portion cover to earth will be given.

7.07 p.m.

February 17th, 1920. Tuesday.

Hint, bent, border.

1. Hiddens hint.

2. Authentic hint.

3. Authority hint; or authority biographic hint, Hint Column marked a 284 levels.

To any names, as - specifies hiddens or any new word of the Master, if Hint is applied to it.

The formation and throw will be explained hereafter.

7.22 p.m.

Hint

The cause of hint is a ground devoid of all existing princi-

73

ples in this a starting is the Hint.

A space of unequal capacity in every where and as a whole of "Hinting space" i.e. a pure wantless space.

(No necessity of thinking etc).

There is a great to this Hint place from all Heat, cool, etc. and none will approach it.

There is no activity up to present moment has reached nor attempted, and Hint had not shown activity and there is no necessity to it.

It has neither absorbed nor shown any activity to show higher or down.

All is equal to it because nothing could reach it.

7.45 p.m.

Hint - to describe it is like a six padows discribing.

To take limit to this Hint as stop, bottom and all round.

Outer to this are the - authentic Laving tyres and all chill, empty space and big space etc. in stages form.

To this Hint outer lower and lower down from time immemorial the Hint unlimited in space in very lower grade by long long periods it is going on and on. Finding no border and the lowest grade conscience came it throws suddenly this lowest grade it becomes has 'Bent Border'

Hint - to hint a motion and its end must be;

For motion - begin motion, Truth.

8.40 p.m.

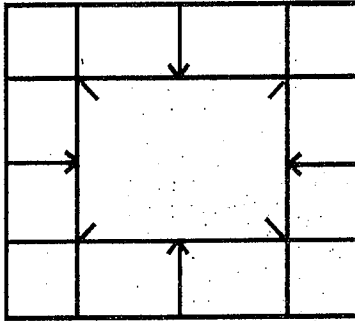

Feb 17th 20. Fri.

From nil border, a Hint as begin means having all in conception. So hint has a bent Border. By this Begin has a bent border

Hint was a in equal level Grade. After reached the lower Grade none, nil or no, nothing etc acts within Hint and shows bent borders.

9.00 p.m.

9.00 a.m.
HOROSCOPE:

1. KAMYAM (కామ్యం)
2. KALAM (కళం)
3. JANYAM (జన్యం)

Combined Work of these
THREE IS CALLED DHATUKALA

The beginning of man-form and births could be taken from this to man present.

2 Kalam will reveal the number of births, and the period of its living. From the date of deposit calculating @ 360 days the period should be determined.

4.50 p.m. Same Subject

1	2	3	4
<u>Nagaram</u>	<u>Bootham</u>	<u>Abootham and Bavishyath.</u>	

1. Woomb deposit.
2. Swelling.
3. Activity beginning.
4. Outer.

After birth by the working of 1,2, and 3. Then Dhathu Kala begins and swells.

Cosmic turn given about the creation of a life:

Feb 27th, 20. Fri.

DHATHU KALA : ధాతు కల

1000 beats per second,

750 swellings and shrinkings in half a second upto epidermis, an increase to the boundry.

DHATHU KALA are formed by DHYTHEYAS.

From the very beginning of a life let it of any form, has begun the formation of 12 signs are there to it, with seven planets.

Beginning of Dhathu kala to a life. In 12 houses, one house as Top and the other as bottom. The rest 10 all round.

The life first receiving one house kala then only it begins to receive the second.

5.55 p.m. Same Subject

First a life is without any kind of bounded circle.

If it enters a house becomes a binding one to that kala quill and it will not act independently in any side.

Then this life is led by the quill to each house and after reaching the first house and if it is to give a birth of any kind it born only in the oppsite house i.e. in 7th house.

8.45 a.m.

Feb 28th, 20. Sat.

The leading of the 12 houses had been formed to this life, the Dhathu kala begins in this life.

Then it is capable of showing each Dhathu of Epithelial Ulans, jaggery tyres etc. (in cosmic they have taken another kind but not the above mentioned route.)

This Life's dhathu kala converts each house upto kundalini features.

9.15 AM

Then as kundalini features to each house. After this, life stands as Dhathu kala. Here past, present, future combined work is called "Dhathu kala".

Here the 12 kundalini featers with 3 pulses in deep level i.e. figureless, showing or turning figure form i.e. physical in dip.

Hereafter kundalini features in dip level standing.

From the beginning of a life to man form at 360 days a year

requires 50 years. Still it has in it 50 years capacity so as to work more.

The balance capacity each year will work a period of 100 years life to a birth of man

This life after the above level, in man form stands Two months then in female Ten months in all 1 year

10.00 a.m.

In the woomb this Life works to form figure, its past. After birth it works to reveal the outer conscience of its past. So the outer cells of man are to be taken in conscience working.

5.15 p.m.

inner level gives only half the conscience to the outer cells and to the moulding too.

It enters man form this Life as kundalini features to man beginning, through inhaling within 2 months period in gaseous state has a hinting to man birth, from that house is the lagna for a human form is to be taken.

This Lagna house, the figure grade past, present, future gives to the birth a fixing is made in that Lagna to produce any number of figures for further births, after physical demolish, in succession from the Lagna house.

6.00 p.m.

As it is fixed in the Lagna so in the woomb there is no necessity for any kind of other works but simply accumulates only matters to form figure.

This Lagna will produce both male & female to the same figure in different births.

In self Lagna, as kanya, birth male
Balance 50 years - at that rate 1 as 100 = 5000

Male ----- 2500 births

Female--- 2500 births

Life beginning Meenam.

In centigrade work to complete 10. there are 2 lives. So one five as Male and the other as Female.

3 Female births --- as coating giving.

1 Female births --- only absorbing not giving coating.

1 Female births --- no absorption.

The same to male:

6.30 p.m.

To find out the past.

From the opposite house of birth to trace at the rate of 100 years and occupation of the planets up to beginning life.

To calculate from mesha to birth Lagna the number of houses and to multiply by 360 births to each house to find out the past births.

Births $360 \times 7 = 2520$.

To kanya birth instead of going to female has become male owing to the production of female children 200 and male children 160 in all 360 children the want of matters the outer as male and the inner as female.

If the Lagna comes 7th house from mesha, One house births 360 should be calculated as children.

7.45 p.m.

For the present birth.

There is gaseous figure form ever giving by Lagna.

in the Life beginning the quill will not act in creation from the 12th house.

Self life has begun from the 12th which is a deposit of all the
